

CORPORATE DIGITAL TRAINING

2025

www.digitalperak.com.my

Hub Inovasi & Multimedia <<<<<<

"In realizing digital transformation, Digital Perak Corporation Holdings through the Innovation & Multimedia Hub Unit offers a variety of professional corporate digital training to meet the demand for skilled workforce. By combining factors such as programs with quality content, effective delivery methods, affordable pricing, and the customization of all courses to meet customer needs, Digital Perak has become a selected training provider and event organizer in Perak."

Mohamad Suhaimi bin Mohamad Tahir
Chief Executive Officer
Digital Perak Corporation Holdings

MAIN OBJECTIVES

PERFORMANCE IMPROVEMENT

Training and development can enhance employees' skills and knowledge in specific areas.

PRODUCTIVITY IMPROVEMENT

Productivity is not only dependent on employees, but also on the technology used. Training and development can streamline processes to ensure employees remain aware and knowledgeable about the latest technology

Artificial Intelligence

Artificial intelligence (AI) technology is rapidly evolving and is predicted to significantly change human life, whether in education, healthcare, business, or enterprises. AI involves the use of algorithms, mathematical models, and data processing to enable machines to learn, understand, plan, and make decisions on their own. AI technology in Malaysia has seen a significant increase in efforts to develop essential skills such as creativity, collaboration, problem-solving, and critical thinking.
